Tutor Spotlight

How has your experience been so far as a tutor?

My experience as a tutor has been amazing. I was paired up with great students that want to learn. They make it easy. I feel excited for them when they tell me that they have learned something they didn't know. I am grateful to have the opportunity to help others.

Give three reasons why being a tutor might influence an adult member in your community struggling with literacy skills.

*We are here to help you in what you want help in. Don't be afraid to ask.. A lot of students get embarrassed but they should feel proud of themselves for trying.

*It's never to late to learn. I learn something new everyday. We work with reading comprehension.

*You will feel confident speaking to someone in English when you are out in the community.
